

Laptops are More Secure

Laptops running GNU / Linux are More Secure Than Cell Phones

**Scott
Barry**

•

**Laptops running GNU / Linux are More Secure Than Cell Phones
Ventoy*net > Install a Linux ISO > Run To Ram Disk on your
Laptop Desktop ...**

**Laptops and Desktops running GNU / Linux on RAM Disk Ventoy
are More Secure than Cell Phones ... Why is that exactly ? Cell
Phones have an IMEI Number and you cannot get rid of it,
removing the Sim and changing to Lineage OS Does Not Help One
Single Iota ... De-googling is not always gonna be 100% , it puts
off ultrasonic signals and uses several modules, modems, and
telemetry sensors ...**

**I feel more static and noise from a UEFI Computer than a Legacy
BIOS Computer ...**

**I feel more static and noise from a Android / iOS Phone than A
Linux Laptop ...**

**It seems they want , telemetry sensors , IME Numbers you
cannot remove, and Ultrasonic Tracking on all of these Phones , a
Ram Disk Linux Distro is 10 Times More Secure and Everything is
Erased on a Live SSD or Live USB of Linux ...**

**1984 is Idiocracy is The Truman Show is Invasion of the Body
Snatchers ...**

**Body Snatched Brain Worm Skin Suites is 1984 is 2020 AD is
Degenerate Waffle ...**

**If you re-read the Hippocratic Oath the fine print says the
Opposite of Do No Harm ...**

**You're getting a false sense of security with an Alphanumeric
Phone Password ...**

**You can do the same thing on a Laptop = BIOS Password with
Veracrypt Installed ...**

**These people are only narcissistic , Cell Phones have no Firewall ,
Changing the ROM is never gonna be as good as running Linux on
RAM DISK from an SSD or USB ...**

An IMEI # is a Tracker , Changing Roms and Removing Sims Does Not Work ...

Sure Pins are useless to Police Software , However they still track by IMEI even when the SIM is remove and the ROM is changed to Lineage OS or Ubuntu Touch ...

Also on a Laptop/Desktop you can easily spoof the Mac Address , Disable Ping Response , Disable Port 80 or other Ports , Close Any Port , Run OS on Ram Disk ...

You can set a DNS (456011) and all on a Phone you have to risk Rooting It ...

Freedns*zone / 456011 - A DNS Server is a Simple Shit For Brains Solution ...

Also you can get a Linux Distro that has OpenRC instead of Crappy Systemd ...

The IMEI Number is inside of the Phone, No Way to Remove it ...

The Iron Hammer is the Only Solution to Getting Rid of an IMEI Number ...

Spend more time out in nature and you will be less exposed to Psychotronics ...

Ultrasonic Tracking, SCALAR WAVES, The Lilly Wave, Pulsed EMF Waves ...

Blue Light and the Rest of it is only there to Fuck With Your Brainwaves ...

Plus Laptops and Desktops are Real Computers that can Edit a File ...

Phones are costing 900 Dollars whilst Laptops only 200 Dollars ...

You're paying for Ultrasonic Tracking, Telemetry, Scalar Waves, Cancer ...

Not only that Cell Phones are Linked To Cancer and Health Problems ...

You can put an EMF Blanket under a Laptop and go Wired Ethernet ...

An EMF Blanket > Aluminum Foil/Vynil Tarp Print/Wood/Duct Tape ...

Make it 12 by 12 Place it under the laptop and stop Psychotronic SCALARS ...

If Laptops had IMEI Numbers People would move to NUKS and Desktops ...

You cannot get rid of an IMEI Number unless you remove the Module ...

Sometimes it is micro-soldered in also so you need special tools to do so ...

That's why the Laptop and Desktop will be More Secure NO IMEI Number ...

They also made it illegal to change the IMEI Number also so WTF 1984?????

Get a Sony ICD-PX 470 or MP3 Player and listen to Music On That Instead ...

They are seriously using your phone for SCALAR Wave Psychotronic Control ...

There used to be only one result of "The Lilly Wave" on Google Look it up ...

W UAC/SCALAR/Lilly/Pulsed/EMF/WAVES They Have US Psychotronically ...

SCALAR Waves can also go right through a Faraday Cage as well ...

They are also a Source of Overunity Electricity and make up Free Energy ...

There is a Document From the CIA :

<https://www.cia.gov/readingroom/docs/CIA-RDP96-00792R000500240001-6.pdf>

So use a Laptop / Desktop to Avoid the 5g/4g SCALAR WAVE MIND CONTROL ...

Remember SCALAR Waves are an Over-unity Power Source To Do Mind Control ...
